

VOLUME 1 NUMBER 9

SEPTEMBER 2013

The Georgia Mountain Modelers is a Chapter of the International Plastic Modelers Society (IPMS/Georgia Mountain Modelers 03-47). Our club meetings are in a relatively loose, informal, conversational format. IPMS/USA is an organization dedicated to the fun of Scale Modeling. In January of 1964, Jim Sage, from Dallas, Texas, was invited to form an independent and equal branch of IPMS/UK, and soon IPMS/USA was born. There are now chapters of IPMS all over the world. Many Local Chapters and Regions sponsor Model Shows & Contests every year. You do not have to be a member to attend the shows or our local club meetings. But, you will need to be an IPMS member to enter models in any of the National IPMS events. You can join at the IPMS/USA website... <http://www.ipmsusa.org/index.htm> . Our chapter is a part of IPMS Region 3, you can learn more about our region, and the other clubs located in the region, at <http://ipmsregion3.org/index.html> . If you are not an IPMS member, we HIGHLY recommend that you join the organization.

Memberships are available in several types:

Junior: 17 years old or Younger, \$12.00 per year

Adult: 1 Year \$25.00

Payment Information: Online Payment may be made via Credit Card only.

Applications using payment via Check or Money Order should be printed and mailed to:

IPMS/USA

Dept. H

PO Box 2475

N. Canton, OH 44720-0475

For any questions or problems with your membership application/renewal, please contact the IPMS/USA Officer Manager, **Ms. M.J. Kinney**, at manager@ipmsusa.org

HEAD SHED RAMBLINGS

GMM Christmas Party

Or How I Ate Too Much

The Georgia Mountain Modelers' Christmas party has come and gone for another year. For those that could not attend, I would like to say that you were truly missed. For those that did attend, I can say that a good time was had by all!

On Sunday December 8 it was cold and rainy outside, but indoors it was dry and warm. The party house was filled with the smell of coffee, baked ham, smoked turkey, and all the sides. Pies, cakes and homemade candy lined the dessert table. Fellowship, good cheer and the holiday activities were about to begin.

JimM was the first to arrive with a cheesecake and his in-progress JU-88 with a very unique camouflage scheme. Soon others began to arrive with chips and dip, desserts, and side dishes. Oh yes, everyone brought his swap-around gift. But, more on that later.

As we waited on the last person to arrive Marilyn arranged the serving table, browned up Steve's potato-au-gratin and made sure everyone was hitting the appetizers. You could hear modeling talk all around – talk about painting techniques, new kits being released, current projects under way, and plans for the new year.

It wasn't long before we all started to circle the serving table filling our plates with ham, turkey, mac and cheese, potato dishes, dirty rice, and rolls. Table conversations continued the talk about modeling and the military. Behind us the dessert table was lurking with its pies (including key lime pie, yum, yum), a pound cake (with real whipped cream), a chocolate cake, cheesecake, and homemade candies.

When we finished the meal we all helped Marilyn clean off the tables and we moved to the fun portion of the party – the gift exchange. We used the same basic rules as the IPMS Atlanta party. However, we decided to limit the movement of any one gift to three picks. For the most part the taking and retaking of gifts was relatively low. I think this is due to the fact that every kit was a keeper. Some people selected a gift that contained a model they don't build. For example, BillF's gift turned out to be a tank. The most traveled kit was an Eduard Spitfire kit. I can remember hearing BillR saying that he had not built a Spitfire and he was looking forward to building this beautiful kit. (I'm not sure he was able to walk out the door with it or not.) The gifting continued when a stack of presents was discovered behind Chuck's chair. These were raffled off and the lucky winners again had some nice kits. Once all the gifting was done it was fun to see the swapping and deal making going on as the group tried to achieve some degree of modeling interest equilibrium.

By the time the gifting was over daylight was turning into dark and the cold rain was still falling. As people began to look for their coats, Marilyn was encouraging everyone to fill a plate with leftovers and desserts. It was very satisfying to see a group of people from various walks of life but with one binding interest heading home with full stomachs, plates of food, an armload of models, and smiles on their faces. This is what the Christmas season is all about. **Let's do it again next year!**

MEETING NOTES

As I have written before, if you weren't there, you missed it. We had a great time enjoying the hospitality of the Downen home thanks to the effort and preparation by Perry and Marilyn. I really need to mention that the food was REALLY good and our hosts were equally generous with the libations. Personal thanks to Ed Shelnutt for driving Steve and me home!

Equally fun was the IPMS Atlanta Christmas Party! There were several of us GMMers at that one, too, and the competition for a few of the models was fairly engaging. There were not fist fights, but I've never seen one model in the covetous hands of so many. Even I was able to touch the 1/32 Tamiya Corsair for a few minutes before it was wrested from my quivering grip! LOL!

I have a rather special issue for you, one intended to take you back to your youth. You'll find many of the regular features missing, but they'll be back in the January 2014 issue. 2014...amazing. Until we meet again at our regular club meeting and the Chattanooga show in January, I, along with all of the GMM officers wish you a Merry Christmas and a Prosperous New Year!

A MEMORABLE CHRISTMAS

Join us on a trip down memory lane to a time
when our Christmas fantasies were embodied in the
pages of the Bear's Christmas Catalog.

Engine-powered Airplanes with Automatic Starters

- Do everything a real plane does . . . loop, climb, dive for the ultimate in thrilling action . . . 1 cylinder engines
- They're all assembled and ready to fly except for fuel and starter-battery which you order below
- Also available with sensational Remote Control Unit for only a little more

A Marine Corsair. A replica of the famous fighter plane. *Rotomatic starter* . . . fully automatic. Just wind prop 1 turn and let it go . . . engine catches immediately. Durable plastic. Blue with red and white trim. Cockpit pilot, canopy. Rubber trim, nylon prop. Lines and handle. 13 1/4-in. wingspread. Order fuel, battery below.
49 N 2389—Shipping weight 2 pounds **\$7.98**
49 N 2204—Combination of Corsair above and remote control unit below. Shpg. wt. 3 lbs. **\$11.88**
Yellow-Jacket. Same as above except has *Flexomatic* (semi-automatic) starter . . . yellow with black trim.
49 N 2111—Shipping weight 2 pounds **\$3.98**

B Air Force Turbojet. Sleek swept-wing design for speed, stability . . . jet-stream wing tanks. Flies like a dream as it loops, dives, stalls. Instant-starting *Cyclomatic starter* . . . you pull on cable and the engine catches . . . you never have to touch the prop. This is the "ultimate" in the engine field. Constructed of almost unbreakable plastic. Pilot in cockpit. Tri-cycle landing gear. 3-bladed prop. Red fuselage, white wings, 15 1/4-in. wingspread. Order accessory kit, battery below.
49 N 2299—Shipping weight 2 pounds **\$11.95**
49 N 2174—Turbojet above and remote control unit below. Shipping weight 3 pounds **\$15.44**

C Navy Cutlass. Our finest ready-to-fly airplane. Beautiful, sweeping lines that are as modern as tomorrow. Fully automatic *Rotomatic starter*. Automatic compensating flight control makes flight maneuvers almost impossible. Aerodynamic delta wing for extra lift, precision flight. True-to-life sculptured pilot. Cockpit canopy. Thrilling jet-black night interceptor color . . . Lines and handle included. Sturdy plastic. 13 1/4-inch wingspread. Fuselage 13 1/4 inches long. Order fuel, accessory kit, battery below.
49 N 2272—Shipping weight 2 pounds **\$12.95**
49 N 2251—Navy Corsair above and remote control unit below. Shipping weight 3 pounds **\$16.77**

Hobby Battery 98C
1 1/2-volt battery for planes, boats, racers.
49 N 2239—Wt. 1 lb. 12 oz. **\$9.85**

1-cylinder Rotomatic .049 engine . . . for do-it-yourself enthusiasts. Engine has fully automatic starter . . . wind prop back 1 turn and let it go . . . motor roars to life instantly. Maximum power for model planes. Gas tank, prop included. Order fuel at left.
49 N 2278—Shpg. wt. 2 oz. **\$4.39**

Accessory kit, 1/2 pint V-73 engine fuel, pouring spout, engine wrench and battery wire with clip.
49 N 2250—Wt. 1 lb. . . . **\$1.37**
49 N 2142—1/2 pint V-73 fuel. Shpg. wt. 10 oz. **\$1.75**

NEW Remote Control Unit . . . authentic stick control

It's fun to operate . . . like being the pilot in a real plane. You actually control the flight of the plane through the use of a stick . . . just like regular pilots use. Pull back the stick, the plane soars into the air, push forward and plane zooms downward. You operate the remote control from outside the flight circle . . . no more turning round and round with the plane as it flies around you. Works perfectly with any engine-powered model airplane. Order it with any plane above and take advantage of the special prices listed above.
49 N 2185—Shpg. wt. 1 lb. . . . **\$4.69**

14.69

FIND PLANET FAST

Sighting scope has lens with cross-hairs to spot planets and zero in on specific areas

KEEP IT IN VIEW

Altitude micro-motion system has fine, sensitive adjustment to keep planet centered in scope

240-power Refractor Telescope with sturdy wood tripod **\$37⁹⁹**

This telescope is loaded with features usually found only on far more expensive scopes. Has a yoke type mount, 5-power sighting scope to line up the subject and a 52-in. adjustable wood tripod to keep scope steady. The micro-motion knob allows the fine adjustments necessary for keeping the subject centered as it moves through the sky. Wide range of magnification: 32, 63, 120 or 240-power for inverted viewing; 48 or 175-power for upright image. Accessory shelf on tripod holds lenses not in use. Main lens is achromatic coated 60mm objective, 700mm focal point. Rack and pinion focus adjustment. 30-inch long metal scope. Double caps. From Japan. 79 C 21607C—Shipping weight 10 pounds..... \$37.99

7 lenses:
24mm finder scope lens,
1.5x erector,
2x Barlow,
6mm, 22mm,
sun filter
and moon filter

30-power Hand-size Telescope

\$3⁹⁹

Survey the area or gaze at your favorite planet with this refractor telescope. Precision-made 30mm objective lens achromatic coated for clearer view. White enameled aluminum tube, rust-resistant chrome-plated trim. Adjusts from 7 to 15 inches. Japan. 49 C 21561—Weight 9 oz. \$3.99

SEARS ROLLS BACK THE PRICE

3-power Binoculars

Save 22%
\$4⁹⁹

Last Christmas was \$6.44. Magnesium fluoride coated lenses for sharp, bright view. Non-prismatic 30mm objective lens. Black enamel finished metal frame with imitation leather cover. From Japan. 49 C 21577—Wt. 9 oz. \$4.99

Refractor Telescopes bring the stars and planets to earth

3 lenses:
1.5x erector,
6mm lens,
and sun filter

5 lenses:
sun filter,
10.5 mm,
22mm,
3x Barlow
and 1.5x erector

150-power Scope and Tripod **\$19⁹⁹**
... see Saturn's rings close up

1 Young astronomers can take a good look at the moon, stars and planets... just mount scope on tripod for a clear, steady view. Magnification is 100-power inverted and 150-power erected. Main lens is achromatic coated 50mm objective with 600mm focal length. Lens hood, eye end and draw tube are plastic. 24-inch main tube, mount and tripod chain are metal. 2-section wood tripod, 49 in. high. Sun filter, 6mm eyepiece. 1.5x erector lens. From Japan. 79 C 2158C—Shpg. wt. 8 lbs. \$19.99

200-power Scope and Tripod with swivel **\$24⁹⁹**
... finder scope helps line up stars

2 Wide range of magnification: 32, 67, 96 or 200-power for inverted astronomical viewing; 48 or 100-power with an upright image for terrestrial viewing. Two different eyepieces (10.5mm and 22 mm) help you see details more clearly. The erector lens increases power 50%, the Barlow lens triples magnifying power. Main lens is achromatic coated 60mm objective with 700mm focal point. Rack and pinion focus adjustment. Wood tripod steadies the scope... it's 49 in. high. Steel swivel mount locks in any position. White enameled metal; black plastic trim. 27 in. long. Japan. 79 C 2155C—Shipping weight 9 pounds..... \$24.99

ALLSTATE 6-unit Electric Train on Trestle

Locomotive smokes,
steams, shines light

Complete with transformer **\$19.89**

Belches smoke as it chugs up grade, sweeps around curves of 20 foot track

Authentic? You bet. Locomotive pours out the smoke, steam comes out of the mighty pistons and a headlight casts a strong beam. Hauls a tender, tank car, boxcar and caboose.

Track, in straight and curved sections, rambles in two circles with an over-and-under bridge. Trestle set in gradual heights gives your engine hills to test its "muscles."

50-w transformer with circuit breaker lets you control all action. UL approved for 110-120-v, 60-c AC. Bottle of smoke-making fluid. Train 4 ft. long. Over 20 ft. of track.

49 N 9822C—Shipping weight 13 pounds.....Set \$19.89

"Gravel roadbed" 3-tie Track

For ALLSTATE or MARX regular gauge sets. Metal and plastic.

- 1 Curved Track, 9½ inches long. 49 N 9702—Shipping weight 4 oz. 28c
 - 2 Straight Track, 8½ inches long. 49 N 9701—Shipping weight 4 oz. 28c
 - 3 Crossover Track, 7½x7½ inches. 49N9703—Shipping weight 4 oz. \$1.39
 - 4 Uncoupling Track, 8½ in. long. 49 N 9710—Shipping weight 4 oz. 97c
 - 5 Electric Switches. Push-button control panel. 1 right and 1 left. Wires. 49 N 9706—Shipping wt. 2 lbs. Set \$6.88
- Manual Switches. Lever-control action. 1 left and 1 right. (Not shown.) 49 N 9704—Wt. 1 lb. 12 oz. Set \$3.89

Transformers for regular gauge

Steel cases. Circuit breakers. UL listed, 110-120-volt, 60 cycle AC.

- 6 50-watt, 7-13-v for train, accessories. 49 N 9721—Shipping wt. 3 lbs. \$5.47
- 7 100-watt, 5-15-v for train, accessories. 49 N 9722—Wt. 4 lbs. 4 oz. \$7.99

Complete with transformer **\$29.89** cash
NO MONEY DOWN

Run an ALLSTATE 9-unit Electric Train, 6 feet long

Switch cars into sidings... couple and uncouple them by remote control... load and unload them with derrick

Highballing down the track, this freight puffs a trail of smoke from the stack and cool steam from the piston cylinders as headlight pierces the darkness ahead. Locomotive speeds up or reverses... pulls tender, piggyback car with truck, gondola and side-rack flat car with cartons, boxcar, hopper, tank car and caboose. Station with figures, 6 autos, poles, lamp posts, billboard and derrick add realism to the 55x28-inch layout. Over 11 feet of roadbed track include 8 curved, 8 straight, 2 uncoupling sections, 2 manual switches, 2 bumpers, bridge. Plastic and metal. 50-watt transformer with circuit breaker, track connector. UL approved, 110-120-v, 60-c AC. 79N9825L—Wt. 19 lbs....Set \$29.89

NOTE: All items on this page are regular gauge, have 3-rail, 1¼-in. wide tracks

King Arthur's Castle

Three knights in shining armor
 fight for the
 legendary treasure and dragon. **\$12.99**

Airport Set \$4.99

Planes and Vehicles have roaring friction engines

Here's an airport on the low-costing—friction—engine model building range. It'll be built in most airport sizes. Five 1/2 in. steel planes include 2 jet craft, prop engine, and helicopter that spin their blades in the air. Four 1/2 in. motor vehicles. Colorfully decorated. From Japan. No. 4020—Shipping weight 2 pounds. \$4.99

\$6.95

Big 3-foot Cargo Plane has 4 friction-engine Cars

Red, white and blue skin opens in the middle. 1/2 in. cars make much more noise rolling up the rear steps, unfolding at forward ramp. All "aircraft" for friction-powered gas track. All are strong steel. All made in Japan. No. 4021—Shipping weight 2 pounds. \$6.95

\$3.99

Friction engine whirrs like jet as Plane rolls

2 ton long steel jet, dark with glass of the air. Push lever, door opens, showing subsonic interior. Push lever back, door closes, gas engine's fans appear at windows. Made exclusively for Sears in Japan. No. 4022—Shipping weight 2 pounds. \$3.99

Motorized Helicopter shifts into 3 speeds automatically

2 ton long, 1/2 motor revs, slowly at first then faster... motor power 2/3 in. and rev up to top speed. Plane runs forward for "take off". At end of run prop, motor slow to stop. Steel, 1/2 in. long. From Japan. No. 4023—Shipping wt. 2 lbs. \$3.99

REMCO Barracuda Atomic Sub

\$7.44

\$3.47

\$3.47

The Sloop really sails... while course is stiff wind

See windable sailing ship take on winds and waves with special sailer, weighted keel. Brass-rod keel 1/2 in. long, white iron, magnetic color. Polystyrene plastic. Steel 1/2 in. high, 1/2 in. long. No. 4024—Shipping wt. 1 lb. \$3.47

Lookin' Less float... rolls on float

JAMES BOND
SECRET AGENT

007

SHOOTING
ATTACHE CASE

The case and pistol/rifle shoot harmless bullets
.. with dagger, codes, passport, 2 booby traps

\$9.88

Rugged leather-grained plastic case looks so innocent—but it conceals a dagger on side, a trigger on top. Open it, there's a 4-piece weapon that assembles into a 30-inch automatic rifle with cartridge-scope . . . it's also an automatic pistol or single-shot Luger. 12 plastic bullets. Includes decoding machine, passport, wallet, currency, calling cards. 17x12-inch case and codebook are booby-trapped . . . open 'em wrong and cap fires. 49 N 2727G—Shpg. wt. 3 lbs. 8 oz. (Not sold in N.Y.C.) . . . Set \$9.88

A movie camera . . . *click!* A machine gun

\$3.99

New from Mattel

Zero M Movie-Shot

Looks like a camera, pull trigger, barrel pops out. 15-inch plastic gun fires caps in bursts or single shots.

Shipping wt. 1 lb. 12 oz.
49 N 2724 \$3.99

Pocket knife . . .
click! A pistol

\$1.99

Zero M Pocket-Shot

Looks like a knife, its plastic blade pulls out. Press release . . . snaps into 6-in. plastic, metal gun. Fires caps. By Mattel. 49 N 2614—Wt. 8 oz. . . \$1.99

Portable radio
.. *click!* A rifle

\$3.19

Zero M Radio-Rifle

Looks like a radio, but turn it "on" . . . stock and barrel spring out into a 19-inch cap-firing rifle. Plastic, metal. By Mattel. 49 N 2629—Wt. 1 lb. 3 oz. . \$3.19

Man from
U.N.C.L.E.

"It's a THRUSH Rifle"

Targets pop up in sniper-scope . . bam! They drop

Hefty 36-inch THRUSH rifle is quite a wonder. Its ray-sight zooms in on daytime danger with crosshair accuracy. For simulated night fighting, a flick of the side switch sets up 4 deadly targets—right in the sight. Pull trigger—the target vanishes in a blast of crackling cap fire. Load caps in magazine clip. Plastic, metal.

79 N 2699L—Shipping weight 3 pounds, \$6.29

Man from
U.N.C.L.E.
Napoleon
Solo Gun

Cap-shooting .45 converts to a long-range rifle

Automatic pistol becomes a 27-inch long rifle when you mount barrel, shoulder stock and extension "silencer." Scope has calibrated crosshairs. Load caps in magazine clip. Rugged plastic with metal parts. Why not pick up the phone and order it?

49 N 2709G—Shpg. wt. 1 lb. 8 oz. (Not sold in N.Y.C.) . . . \$3.99

NOTE for both pages: Caps not included with any cap-firing toy.

JAMES BOND
SECRET AGENT
Special Assignment Set

007

Only Sears outfits agents
with this low priced set

You must eliminate 3 enemy agents,
007. Your kit has a pistol that auto-
matically fires soft plastic bullets
when you attach the scope. Add
shoulder stock for 18-in. rifle. Booby-
trap code book and "radio" fire caps.
Calling cards. Plastic, metal. Not
sold in N.Y.C.

49 N 2707G—Wt. 2 lbs., Set \$3.49

007 B.A.R.K.

Bond Assault Raider Kit

\$588

James Bond's most devastating
weapon converts from a business-
man's case to an all-out attack
arsenal. Built-in launcher lobbs 3
harmless rockets. Pistol shoots a
message-carrying missile or cap-
exploding grenade. . . also conceals
cap-firing palm gun. 14x11-in. case
shoots, too. Plastic, metal.

Shpg. wt. 2 lbs. 3 oz.
